SN Plus - Media for Awareness, Understanding, and Peace

Built on three decades of media experience, SN Plus is a nonprofit media initiative of the Heela Organization, dedicated to education, cultural understanding, public awareness, and peaceful coexistence.

Through films, television series, documentaries, and educational programming, we inform, inspire, and connect communities - across cultures, languages, and generations.

Our work is guided by media ethics, impartiality, human dignity, freedom of expression, respect for religious and cultural diversity, and social responsibility.

We believe responsible storytelling promotes mutual understanding, encourages dialogue, raises awareness of the challenges our societies face, and helps prevent violence, extremism, discrimination, and substance abuse.

Independent and nonpartisan, SN Plus serves humanity - and works toward a more informed, inclusive, peaceful, and compassionate world.
